TECHNICAL SKILLS

ServiceNow: ServiceNow Platform, ServiceNow Certified System Administrator (CSA)

Languages: JavaScript, TypeScript, SQL

Frameworks: [Next.js](#)

Databases & ORM: PostgreSQL, Neon, Drizzle ORM

Tools: Git, GitHub

PROFESSIONAL EXPERIENCE

ServiceNow Developer — Deloitte Innovation Hub | Aug 2026 – Present

Cairo, Egypt

- Apply ServiceNow platform expertise and a backend engineering background to support enterprise IT Service Management (ITSM) initiatives and workflow automation for organizational operations.

Back End Developer — ScanDrum | Dec 2025 – Feb 2026

Cairo, Egypt

- Developed and maintained backend systems, APIs, and databases for web and mobile applications using Next.js, TypeScript, and PostgreSQL.
- Implemented Drizzle ORM against a Neon-hosted PostgreSQL database to streamline data access and improve application performance.
- Collaborated with cross-functional teams to integrate backend services with front-end features, ensuring reliable end-to-end functionality.

Full Stack Developer — DigiCrafterz | Nov 2025 – Dec 2025

PROJECTS

ScanDrum Backend Platform — Backend system built with Next.js, TypeScript, PostgreSQL (Neon), and Drizzle ORM; developed APIs, database schema, and server-side logic supporting web and mobile clients.
